

Firstly I would like to thank the media for respecting the wishes of the family and allowing the meeting to be conducted between the family local community members.

The meeting tonight was arranged due to the overwhelming response from the local community and kind offers of support and donations. The purpose of tonight was to establish a structured approach to how we can capture this goodwill and generosity in an such a way that it is with the consent of the family.

We have spoken with Mick and the family who have given their consent to the launch of the D-J's Trust, named after Dwayne, Jade, John, Jack, Jessie and Jayden. This is now the official trust for the family, which will not only coordinate donations but also coordinate and arrange any activities or events that are being hosted on behalf of the trust and the family. Importantly, we wish to emphasise that this group is the only group operating with the consent of Mick and his family.

We appreciate that many groups, businesses and individuals have been arranging activities and collections, and these can now be paid into the trusts official account at any Lloyds TSB branch using the D-J's trusts name from Wednesday 16th May 2012. We would further request that any organizers of existing or future activities or collections please contact the trust to inform them of the planned activity through OSCAR on 01332 888589 or email Anthony@oscarderby.org until such time the trust can establish their own emails address.

We would also like to ask that all other enquiries including those by the media are directed to the trust through OSCAR.

We would again on behalf of the family and friends like to thank ever everyone for their messages of support, kindness and generosity shown to the family during this difficult time.
